

Vindiciae Gallicae And Other Writings On The French Revolution

Vindiciae Gallicae was James Mackintosh's first major publication, a contribution to the debate begun by Edmund Burke's Reflections on the Revolution in France (published by Liberty Fund in 1999) The success of Mackintosh's defense of the French Revolution propelled him into the heart of London Whig circles The turn of events in France following the September 1792 Massacres caused Mackintosh, along with other moderate Whigs, to revise his opinions and to move closer to Burke's position A Discourse on the Law of Nature and Nations was the introduction to a popular course of public lectures at Lincoln's Inn in 1799 and 1800 These lectures provided Mackintosh with an opportunity to complete the evolution of his political thought by expounding the principles of a Scottish version of the science of natural jurisprudence dealing with "the rights and duties of men and of states," to announce his withdrawal of support for the French Revolution, and to criticize former allies on the radical wing of the reform movement The Liberty Fund edition also includes Mackintosh's Letter to William Pitt, an attack on the prime minister, Pitt the Younger, for going back on his own record as a parliamentary reformer; and On the State of France in 1815, his reflections on the nature and causes of the French Revolution James Mackintosh (1765-1832) was a prominent Scottish Whig politician, a moral philosopher, and a historian of England He belonged to the group of students that surrounded Dugald Stewart, professor of moral philosophy in Edinburgh, during the last decades of the eighteenth century and the first decade of the nineteenth century He was a regular writer for the publishing enterprises this group founded and edited, notably the Edinburgh Review and the Encyclopaedia Britannica; he contributed to the latter his "Dissertation on the Progress of Ethical Philosophy, Chiefly During the Seventeenth and Eighteenth Centuries," thereby completing a project begun by Dugald Stewart Donald Winch is Research Professor in the School of Humanities at the University of Sussex and a Fellow of the British Academy Knud Haakonssen is Professor of Intellectual History and Director of the Centre for Intellectual History at the University of Sussex, England

Vindiciae Gallicae and Other Writings on the French Revolution-Sir James Mackintosh 2006 Vindiciae Gallicae was James Mackintosh's first major publication, a contribution to the debate begun by Edmund Burke's Reflections on the Revolution in France (published by Liberty Fund in 1999). The success of Mackintosh's defense of the French Revolution propelled him into the heart of London Whig circles. The turn of events in France following the September 1792 Massacres caused Mackintosh, along with other moderate Whigs, to revise his opinions and to move closer to Burke's position. The Liberty Fund edition also includes Mackintosh's Letter to William Pitt, an attack on the prime minister, Pitt the Younger, for going back on his own record as a parliamentary reformer; and On the State of France in 1815, his reflections on the nature and causes of the French Revolution.

Unhomoely Empire-Onni Gust 2020-11-12 This book examines the role of Scottish Enlightenment ideas of belonging in the construction and circulation of white supremacist thought that sought to justify British imperial rule. During the 18th century, European imperial expansion radically increased population mobility through the forging of new trade routes, war, disease, enslavement and displacement. In this book, Onni Gust argues that this mass movement intersected with philosophical debates over what it meant to belong to a nation, civilization, and even humanity itself. Unhomoely Empire maps the consolidation of a Scottish Enlightenment discourse of 'home' and 'exile' through three inter-related case studies and debates; slavery and abolition in the Caribbean, Scottish Highland emigration to North America, and raising white girls in colonial India. Playing out over poetry, political pamphlets, travel writing, philosophy, letters and diaries, these debates offer a unique insight into the movement of ideas across a British imperial literary network. Using this rich cultural material, Gust argues that whiteness was central to 19th-century liberal imperialism's understanding of belonging, whilst emotional attachment and the perceived ability, or inability, to belong were key concepts in constructions of racial difference.

Scottish Philosophy in the Eighteenth Century, Volume I-Aaron Garrett 2015-03-05 A History of Scottish Philosophy is a series of collaborative studies by expert authors, each volume being devoted to a specific period. Together they provide a comprehensive account of the Scottish philosophical tradition, from the centuries that laid the foundation of the remarkable burst of intellectual fertility known as the Scottish Enlightenment, through the Victorian age and beyond, when it continued to exercise powerful intellectual influence at home and abroad. The books aim to be historically informative, while at the same time serving to renew philosophical interest in the problems with which the Scottish philosophers grappled, and in the solutions they proposed. This new history of Scottish philosophy will include two volumes that focus on the Scottish Enlightenment. In this volume a team of leading experts explore the ideas, intellectual context, and influence of Hutcheson, Hume, Smith, Reid, and many other thinkers, frame old issues in fresh ways, and introduce new topics and questions into debates about the philosophy of this remarkable period. The contributors explore the distinctively Scottish context of this philosophical flourishing, and juxtapose the work of canonical philosophers with contemporaries now very seldom read. The outcome is a broadening-out, and a filling-in of the detail, of the picture of the philosophical scene of Scotland in the eighteenth century. General Editor: Gordon Graham, Princeton Theological Seminary

Before Method and Models-Ryan Walter 2021-08-05 A boldly revisionist history of the first disputes in nineteenth-century Britain over the role of economists in society Economics now so dominates our understanding of how the world works that some of the field's most influential concepts seem akin to natural laws. Yet economists themselves are a relatively recent species of intellectual, first emerging in the late eighteenth and early nineteenth centuries. And like the economists of our own era, the pioneering work of the early economists was decidedly a product of its time. Before Method and Models looks back to the first disputes in nineteenth-century Britain over the role of economists in society to explain how the broader historical and intellectual context has always shaped the field. Ryan Walter's boldly revisionist history focuses on Thomas Robert Malthus and David Ricardo, both of whom were attacked for producing a type of knowledge that was perceived to be dangerous to society. Rather than simply assuming that "classical political economy" always existed, Walter recovers the historical circumstances that actually shaped the development of their methods and concepts. The book delves into the major political controversies of the time - the Bullion Controversy and the Corn Laws debate - and the arguments that Malthus and Ricardo advanced in order to shape the outcome. By examining the hostile responses of Malthus and Ricardo's contemporaries, the book shows how the major challenge facing the first economists was to legitimize the activity of theorizing and then reforming economic life. In a time when debate about commerce and politics was conducted without our modern methods and models, Malthus and Ricardo fought for the creation of the new field of political economy and a role for their work at the center of politics. Walter's reconstruction of the era reveals an exceedingly sophisticated debate regarding the costs and benefits of reforming both institutions and laws through the new science of political economy.

Thomas Reid on Society and Politics-Reid Thomas Reid 2015-01-14 Thomas Reid might not have published much on politics, but his manuscripts reveal that he was deeply concerned with social, political and economic issues throughout his career. Published here for the first time, Reid's Glasgow lecture notes and his papers to learned societies in Aberdeen and Glasgow show that he was an acute commentator on contemporary politics and that his theoretical ideas framed solutions to some of the practical political and economic problems of his day.

Hume's Sceptical Enlightenment-Ryu Susato 2015-09-30 The Scottish philosopher and historian David Hume (1711/76) has often been regarded as a key Enlightenment thinker. However, his image has been long contested between those who consider him a conservative and those who see him as a key liberal thinker. Hume's Sceptical Enlightenment offers a new interpretation for such diverse images and demonstrates the uniqueness of Hume as an Enlightenment thinker, illustrating how his 'spirit of scepticism' often leads him into seemingly paradoxical positions. This book will be of interest to Hume scholars, intellectual historians of 17th- to 19th-century Europe and those interested in the Enlightenment more widely.

Edmund Burke as Historian-Sora Sato 2017-11-01 This book provides a comprehensive survey of Edmund Burke's historical thought, a neglected area of both Burke scholarship and historiography. Ranging from Burke's general conception of history to his accounts of English, European, American, Irish and Asian-Muslim history, this book offers much-needed depth and context to his political life. Sora Sato illuminates Burke's ideas on civilisation and world order with careful analysis of both his well-known historical concepts, such as the ancient constitution of England and the spirit of chivalry, as well as his lesser-known opinions on war and the military. Written with clarity and precision, this book is an invaluable reference for scholars of Burke, early modern European history and political philosophy.

The System of Liberty-George H. Smith 2013-04-22 Liberal individualism, or "classical liberalism" as it is often called, refers to a political philosophy in which liberty plays the central role. This book demonstrates a conceptual unity within the manifestations of classical liberalism by tracing the history of several interrelated and reinforcing themes. Concepts such as order, justice, rights, and freedom have imparted unity to this diverse political ideology by integrating context and meaning. However, they have also sparked conflict, as classical liberals split on a number of issues, such as legitimate exceptions to the "presumption of liberty," the meaning of "the public good," natural rights versus utilitarianism, the role of the state in education, and the rights of resistance and revolution. This book explores these conflicts and their implications for contemporary liberal and libertarian thought.

Bluestockings Now!-Deborah Heller 2016-03-03 Bringing together top specialists in the field, this edited volume challenges the theory that the eighteenth-century British intellectual women known as the Bluestockings were an isolated phenomenon spanning the period from the 1750s through the 1790s. On the contrary, the contributors suggest, the Bluestockings can be conceptualized as belonging to a chain of interconnected networks, taking their origin at a threshold moment in print media and communications development and extending into the present. The collection begins with a definition of the Bluestockings as a social role rather than a fixed group, a movement rather than a static phenomenon, an evolving dynamic reaching into our late-modern era. Essays include a rare transcript of a Bluestocking conversation; new, previously unknown Bluestockings brought to light for the first time; and descriptions of Bluestocking activity in the realms of natural history, arts and crafts, theatre, industry, travel, and international connections. The concluding essay argues that the Blues reimaged and practiced women's work in ways that adapted to and altered the course of modernity, decisively putting a female imprint on economic, social, and cultural modernization. Demonstrating how the role of the Bluestocking has evolved through different historical configurations yet has structurally remained the same, the collection traces the influence of the Blues on the Romantic Period through the nineteenth century and proposes the reinvention of Bluestocking practice in the present.
