Legal Research Explained-Deborah E. Bouchoux 2019-09-13 The Fifth Edition of Legal Research Explained offers accessible, complete, and timely coverage specifically created for Legal Research courses. Deborah E. Bouchoux's popular building-block approach ensures that all students can master these essential skills. The text is divided into five sections: 1) conducting legal research using primary authorities; 2) conducting legal research using secondary authorities and other research aids; 3) electronic and computer resources; 4) legal citation form and validating authorities; and 5) "putting it all together," providing a final overview of the legal research process. Research assignments in each chapter, completely updated for this edition, give students practice with both conventional print resources and online sources. Charts, diagrams, and sample pages from research resources help students understand complex topics. In addition, Practice Tips in each chapter offer realistic and helpful suggestions for workplace success, and Ethics Alerts are included throughout the book. New to the Fifth Edition: New "Sidebar" feature provides quick tips showing how the material in that chapter applies to computer-assisted legal research systems, such as Lexis, Westlaw, and Bloomberg Law. Discussion of GovInfo, which provides free public access to official and authenticated publications from all three branches of the federal government. Coverage of new tools used for cite-checking, including EVA and Bestlaw. Discussion of Westlaw Edge, Westlaw's new research platform. Extensive new coverage of artificial intelligence features that boost legal research. References to helpful YouTube videos for tips on Shepardizing, KeyCiting, and researching. New section on sources that provide free public access to the law, including Harvard's Caselaw Access Project, CourtListener, and RECAP Project. New section on preparing informal or email memoranda, with a new assignment. All new Research Questions and Internet Legal Research Assignments included. Professors and students will benefit from: Pedagogy designed to enhance the accessibility of the material, including helpful charts and diagrams, annotated sample pages and screen shots that illustrate legal research authorities, updated Practice Tips offering realistic and helpful suggestions for workplace success, and Ethics Alerts in every chapter. Well-designed assignments help students learn how to use a wide range of research sources. Chapters that demonstrate citation form for the resources discussed. Conscientious revision that ensures that the book has the most up-to-date material, presented in a readable and accessible format.

Federal Courts 2014-Martin H. Redish 2014-08-07

Federal Courts-David P. Currie 1990 Spells out the basic contours of district court jurisdiction in federal question, admiralty, and diversity cases, with notes on venue and on the Supreme Court's original jurisdiction. Tells the student something about the applicable law governing federal proceedings, including remedies against government officers. Deals with limitations on the exercise of jurisdiction that cuts across the various jurisdictional categories: sovereign and official immunities and a variety of statutory and judicial abstention doctrines. Follows the litigant into situations in which a federal court is asked to pass upon what another tribunal has already done.

Cases and Materials on Land Use-David L. Callies 1986

Animals Property & The Law-Gary Francione 1995-04-28 "Pain is pain, irrespective of the race, sex, or species of the victim," states William Kunstler in his foreword. This moral concern for the suffering of animals and their legal status is the basis for Gary L. Francione's profound book, which asks, Why has the law failed to protect animals from exploitation? Francione argues that the current legal standard of animal welfare does not and cannot establish fights for animals. As long as they are viewed as property, animals will be subject to suffering for the social and economic benefit of human beings. Exploring every facet of this heated issue, Francione discusses the history of the treatment of animals, anticruelty statutes, vivisection, the Federal Animal Welfare Act, and specific cases such as the controversial injury of anaesthetized baboons at the University of Pennsylvania. He thoroughly documents the paradoxical gap between our professed concern with humane treatment of animals and the overriding practice of abuse permitted by U.S. law.
